FINANCIAL AND COMMERCIAL.

Wannesday, Sept. 25-6 P. M. The gold market has been strong and at intervals ex-cited to-day, the immediate cause being the Garibaldi news from Italy and the threatening aspect of local political affairs in Tennessee. After opening at 143% and decining to 143%, the price advanced steadily to 144, from which point it relapsed to 143%, the closing quota tion in the room. Subsequently on the street, however, it improved to 143% a 144. There was a brisk borrowing demand for coin, and loans were made at 3 a 5 per cent for carrying. The gross clearings amounted to \$61,257,000, the gold balances to \$1,327,423 and the currency balances to \$2,310,286. The foreign bankers have been buyers, and there is a disposition shown to "cover" shorts under the impression that the premiure cannot be forced lower by speculative means, and that contingencies may occur at any time to advance it.

There is a partial restoration of confidence on the Block Exchange and in the money market, owing mainly to the supply of funds having been somewhat larger than yesterday. The rate for call loans was, however, sand the demand was active. The drain westward shows no abatement, but an impression prevails that the Treas ury is in some way going to keep the money market easy enough for all practical purposes. The great majority of the late bears are, moreover, supposed to have covered their "shorts" and to be rather favorable to a rise than otherwise, and that this is the case the ab-sence of pressure to sell since yesterday goes to prove. The sudden upward bound of Michigan Southern, neverbeless, took both bulls and bears by surprise, and various rumors as to the secret of it were put in circulation; but the truth probably is that a clique was formed to run it up on the "shorts," and the opera-tion was both skilfully designed and executed. The et is now befogged as to the future course of the market, and it is difficult to find a disinterested man who is either a decided bull or a decided bear in feeling. Those who are "long" of stocks, however, are as enthusiastic in predicting a rise as the bears were a few decide whether he should buy or sell stocks in order to make money he had better toss up a penny and abide by the result. The bears tore the market to taiters as late as Tuesday morning, and the buils are now availing themselves of its oversoid condition to wreak vengeance upon their adversaries. It is immaterial to the outside public which side gains the sdvantage; but the speciacle which the Stock Exchange has presented during the past week is a very demoraliz-ing one, and it reduces stock jobbing to the level of faro playing. With respect to monetary affairs, there is no doubt that the demand for money will continue banks are made up; and bank officers say that, although comparative case may follow, it will be only temporay, as the drain westward to move breadstuffs will be swelled by the pork crop, while the cotton crop will call for a large amount of currency. If the stock market becomes largely over-sold, however, as at present, the bulls can lend their stocks to a considerable extent, and their money requirements are correspondingly reduced, while the opportunity presents itself for a sharp cornering operation. But low as stocks are just now, we advise the outside public to avoid buying them, for we know of no quicker way in which a man may be fleeced of his money than by speculation on the Stock Exchange. At the open board at ten o'clock there was a decided

change for the better shown in the temper of the stock market, and prices advanced. Eris sold at 60%, Michigan Southern 77 1/2, and Northwestern 40. At the first egular board the market was strong and active. New York Central closed 2% higher than at the same time yesierday, Erie 2%, Hudson River 3%, Reading 3%, Michigan Southern 13%, Hilmois Central 3%, Cleveland and Pittsburg 21/4, Rock Island 1, Northwestern 21/4, do. preferred 1%, Fort Wayne 1, Toledo, Wabash and Western 4. Milwaukee and St. Paul M. do. preferred 1. Ohio and Mississippi certificates M. Pacific Maii 1M. Canton 2M. Western Union Telegraph 1M. Government securities were steady and moderately active at the noon call. Coupon five-tweaties of 1864 declined 36, while the issue of 1867 advanced 36.

At the open board at one o'clock the market was firm at the advance, and in the case of Michigan Southern there was an advance of 21/2, the stock seiling at 80. Eubsequently Michigan Southern became very active and excited, and the price rose to 85 a 85, the bears having become frightened by an active bidding for the stock. At the second regular board the general market was strong, although Michigan Southern reacted to 821/4. New York Central closed 1½ higher than at the first regular board, Erie ⅙, Reading ⅙, Michigan Southern 5%, Cleveland and Pittsburg 2%, Rock Island 1% Borthwestern %, do, preferred 1 %. Fort Wayne %, Milwankee and St. Paul 2, do. preferred 2)4, Ohio and Mississippi certificates 34, Canton 34, Western Union Telegraph 1. Government accurities were full and barely steady in tone. Five twenties of the new issue of 1865

dectined 1/4. Missouri sixes advanced 1, and Tennessee

At the half-past three open board the improvement made further progress. New York Central sold at 108% a 108 %; Erie. 62 % a 62 %; Hudson River, 128 %; Reading, 101%; Michigan Southern, 83% a 84%; Cloveland and Pittsburg, 80%; Rock Island, 101% a 101%; Northwestern, 41% a 41%; do. preferred, 65% a 65%; Fort Wayne, 102; Milwankee and St. Paul preferred, 63 a 63%; Western Union Telegraph, 39% a 40; Wells, Fargo & Co.'s Express, 57; Mariposa preferred, 18. During the rest of the afterneon the market was excited, and Erie at one time touched 63%, but a slight reaction followed and at six o'clock the following quotations were cur-rent:--New York Central, 108% a 108%; Eric, 62% a 62%; Hudson River, 123% a 129; Reading, 101% a 102; Michigan Southern, 83% a 84%; Cleveland and Pittsburg, 80 a 80½; Rock Island, 101% a 101½; Fort Wayne, 101½; Northwestern, 41½ a 41½; do. preferred, 65½ a 66; Ohio and Mississippi certificates, 26¾ a; Pacific Mail, 139½ a 140; Western Union Telegraph, 30 a 40; Milwaukee and St. Paul preferred, 63% a 65.

The abundant harvest has not yet increased the earn ings of the railways to the extent that was expected. Those of sixteen lines, of which the returns have been published, amounted in August to \$5,973,228, against \$6.619,650 in the corresponding month last yearshowing an increase of \$353,578, or about five per cen only. This is the less encouraging because of the limited erop and the correspondingly light earnings (viz., eight per cent below those of 1866) of the railways in August last year. If we compare the gross earnings of the same milways for the first eight months of the year with those for the same months in 1866, we find that they show a decrease of \$689,657, or about one and a half per cent, the amount this year being \$48,116,168, against \$45,805.855 in 1856. The earnings in January were \$5,413.437, against \$5,378,441 last year; February they were \$4,798,978, ngainst \$4,664,525; in March, \$5,639,601, against \$5,598,523; in April, \$5,812,738, against \$5,473,127; in play, \$5,907,650, against \$3,402,287; in June, \$5,815,741, against \$6,706,446; and in July, \$5,754,735, against \$5,907,850. There was, consequently, an increase in January over the same month last year of \$34,906, in February of \$134,453, in March of \$46,078, and in April of \$339,611; white in May there was a decrease of \$494,637, in June of \$890,705, and in July of \$213,081. The transports tion business of the railways during the last eight months was considerably larger than in 1966, but the gain to this respect was neutralized by the reduction in rates of freight. The sixteen roads included in the reteros quoted are the Eric, Atlantic and Great Western, Obleage and Alton, Chicago and Great Eastern, Northwestern, Rock Island, Illinois Central, Marietta and Cin-innais, Michigan Central, Michigan Southern, Prairie du dien, Milwaukee and St. Paul, Ohio and Mississippi, brt Wayne, Toledo, Wabsah and Western, and Western

In consideration of the privileges conferred by the contract the railway company was to pay, and it is understood did pay, to the govern was to pay, and it is understood did pay, to the government on the day the contract was approved by Congress, a million of dollars in coin; and, further, it agreed to pay an annual rent of two hundred and fifty thousand dollars in coin, in quarterly instalmenta. It is satisfactory that the result of the negotiations for the renewal of these privileges should have been so favorable to this country, the interests of which, in this important partiouiar, were not long ago seriously threatened by Mosquera while

A Cincinnati journal of Monday remarks of local mone-

tary affairs:—

The money market is very nearly steady. Balances of currency, as well as those to the credit of local depositors as to outside correspondents, are reported generally to be at a low point. Raise of interest range at a 12 per cent, with a fair supply of capital in the street seeking business paper at 10 a 12 per cent. Although the employment of money seems to be so nearly full, yet it is strange that it represents in its movements but a moderate degree of activity in mercantile business, and the effect of no speculative excitements.

Decisions.

Before Judge Blatchford.

In the Matter of Freeman Orne, a Bankrupt.—The Register to whom this case is referred submits whether the Register, after an adjudication of bankruptcy, and accepting the surrender of the bankrupt, and issuing a warrant, and the holding of the first meeting of creditors and the choice or appointment of an assignee, can, of his own motion, order an amendment of the bankrupt schedule of creditors, heretofore filed by him, to be made by the bankrupt. Judge Blatchford on this point says "That the Court and the Register, acting as the court when a case is referred to him, should have the power at all times to require the bankrupt to conform to the requirements of the act. An error, whenever discovered, must be corrected, no matter what proceedings have heretofore taken piace." In cases where no note has been given by the bankrupt, or no judgment has been obtained against him, for or on account of the debt stated, in addition to staing what is the consideration of the debt, to state that no note has been given, or that no judgment has been rendered by or against the bankrupt; and also in a case where the bankrupt is solely liable for the debt, whether it is necessary to state thereunder that no person is liable with him as copartner or joint contractor. The Judge says:—'I think it is necessary to state in the schedule whether or not any note has been given or any judgment has been rendered, and also whether or not any person is liable with the debtor as copartner or joint contractor. What shall be considered a sufficient form of statement in those respects is necessarily a matter allowing of some latitude of discretion on the part of the Register. The order for amendment ought to speouly particularly the respects in which the schedules are, in the opinion of the Register, defective, and on which they should, in his judgment, be amended. The bankrupt can be ordered, on the motion of the Register, after the first meeting of creditors

Meeting of Creditors.

In the Matter of W. E. Koeppel.—An adjourned meeting was held for choice of assignees and proof of debt. There was some excitement over this, the choice of the majority of the creditors falling upon Mr. James Davis, of the Eric Railway. Mr. Soiras appeared for the creditors, and Mr. Edwin James for bankrupt.

In the Matter of Stdray E. Locks.—An adjourned meeting was held for proof of debts and choice of assignee. The creditors chiefly reside in Massachusetts and lilinois. Mr. Francis C. Bowman was appointed assignee. The bankrupt was represented by Mr. Edwin James.

UNITED STATES COMMISSIONERS' COURT.

Interesting Military Habens Corpus Case-A Question of Jurisdiction and Veracity.

In re Wm. Lewis Hamilton and the United States Miliary Au Acritics. - This case (which contains several points proceedings) originated in the city of Philadelphia, where it is alleged that Hamilton was culisted into the service it is alleged that Hamilton was calisted into the service of the United States on the 1st of last April. It is also alleged that he deserted in a snort time afterwards, and on being arrested application was made for a writ of habeas corpus, which writ was served on Capitan Brown, of the Twenty-fourth regiment of infantry, in charge of the recruiting station in Philadelphia. Capitan Brown made return to the writ that Hamilton was out of his control, and also out of the district. Capitan Brown was thereupte arrested for contempt of court, on the ground that before making return to the writ he did not take suffici int pains to ascertain Hamilton's whereabouts. Shortly after Hamilton's arrival at Fort Hamilton, on Governor' Island, application was made to Judge Blatcaford for a writ of habeas corpus to have him brought up and discharged. On Hamilton's appearance in court Lieutenant Ass Bard Gardner, on behalf of General Butterfield, asked that, in order to make a proper return to the writ, sufficient time be granted to enable the government to procure the attendance of Capitan Brown has brown in this city. The delay was granted, and the writ for the production of Capitan Brown was served on the Deputy Superntendent of the Printad sphia county prison, by whom it was ignored. Lieutenant Gardner then applied for a writ of attachment against the superintension for contempt of court, pending the serving of which that functionary released Capitan Brown and sent him to New York in the custody of an officer. On the arrival of Capitain Brown released from the custody of the officer. The application was granted and the release ordered.

Yescerday Capitain Brown was before the Commisof the United States on the 1st of last April. It is also

have captain Brown released from the custody of the officer. The application was granted and the release ordered.

Yes-erday Captain Brown was before the Commissioner, on an order from Judge Blatchford, to give his testimony as to the facts of the entistment.

General Butterield's return to the writ of habeas corpus was read by Lieutenaut Gardner, after which william L Hamilton was examined, and testified that he was nimeteen years of age; that his father was dead, and he had resided with his mother in the city of Philadelphia up to the 20th of last August; did not recoilect that he had ever collisted or agoed any inistment papers. On his cross-examination Hamilton was equally positive that he had never emisted or signed enlistment papers.

The Butchers and the Metropolitau Board of

Health.

Ira Shafer and James H. Coleman, the counsel for the Irs Shafer and James H. Coleman, the counsel for the Butchers' Association, have commenced an action in the Supreme Court to restrain the Metropolitan Board of Health from enforcing a recent ordinance of said Board prohibiting the slaughtering of cattle south of Fortieth street. In the bill of complaint it is insisted that the act of the Legislature creating the Board is in conflict with the constitution of this State, and, consequently, void; and it is also urged that should the courts uphold the law, the powers conferred by it are special and limited, and that the ordinance in question is wholly void, for want of jurisdiction, it being alleged that the Board has failed to comply with certain provisions of the act, a compliance with which is absolutely essential in order to give force or vitality to the ordinance in question.

The order to show cause is returnable on Monday next, before his Honor Judge Clerke.

The Case of Ex-Collector Callicott and Others—Another Adjourment.

United States vs. Theophilus C. Callicott, John S. Allen, George J. Hardy, Augustus Dayton, Alexander Cunningham and Louis Fancher.—This case was called on yester-

day morning at eleven o'clock. Mr. Grenville T. Jenks, of counsel for Mr. Callicott, said that he presumed Mr. Keasby (the prosecuting offi cer) was not present owing to some misundersta

cerl was not present owing to some misunderstanding. There were other reasons, which it did not seem worth while to state, why he would like to have the case postponed until Monday. Mr. William, with whom he was associated, was out of town and would not return until Friday evening.

Mr. Ernardt (counsel for Mr. Cunningham) said that on behalf of his client he would like an adjournment until Tuesday. He (Mr. E.) was going to leave town the latter part of this week, and would not be able to return before Monday afternoon.

The Commissioner said that Monday would be preferable, so far as his engauements were concerned if the counsel could accommodate themselves to that day.

Mr. Erhardt suggested that the case be set down for two clock on the afternoon of that day.

Assistant District. Attorney Allen.—Owing to some misunderstanding, Mr. Keasby is not here this morning. I understood him to say to the Court that be could give either Wednesday or Fricay to the case. We not knowing what his engagements are, I don't think it proper on our part to adjourn it any further than Friday of this week, because it is possible another adjournment might be made. Inasmuch as he said he would be disengaged on Friday, I think it would be proper to set it down for that day.

The commissioner said that it was unfortunate they

be made. Inasmuch as he said he would be disengaged on Friday, I think it would be proper to set it down for that day.

The commissioner said that it was unfortunate they had not been advised as to the cause of Mr. Keesby's detention. He (Mr. Newton) would be inclined, unter the circumstances, to postpone it until alonday, as he had been intormed by hr. Jonks that one of the counsel was absent and might not return until then. If Mr. Keesby's engagements were such that they would not bermit of his going on with the case on that day they would set it down for another.

Some further discussion on the subject ensued, but the hearing was finally adjourned until Monday at tan A. M.

Mr. Allen said he hoped it would not be understood that this adjournment was made with the consoit of the government.

The Commissioner replied that it was understood it was not with the consoit of the proceduring officers.

All parties thereupon left the court room.

near Stuyvesant avenue, East Brooklyn. Deputy United States Marshal Higgins, who selzed the still on the 2d inst., testified that when he approached the building he saw three m:n escaping from it. He followed them about a block and succeeded in arresting one of them—the defendant in the present case.

On the part of the delence it was admitted that Hurrell had been at work in the datiliery, but it was also cistined that he was merely a hired laborer there, and consequently could not be held on the charge preferred against him. His counset therefore moved that he be discharged.

The case having been submitted on both sides the Commissioner said that he would reserve his decision for one week, the defendant to be held to hall in the meantime, and added that if Harrell were only a laborer at the place, no might, if he saw fit, show that he was such, and divulge the name of the owner of the still to the prosecuting officers.

Her name is Famile Smith, and her parents, who are dead, formerly resided at 46 Chapel street, Albany. On Sunday last she left the employ of Mr. Garner, and, with \$21 in her pocked, she proceeded to Newark, where she attended evening service at St. Patrick's Cathedral. After the services were concluded she attempted to find a hotel, and inquired of a man whom she met

where she could find a respectable house. The fellow volunteered to direct her, and while the two were walking along they were joined by several companions of the guide. They frequently asked her to drink, but she declined and attempted to relieve herself of the company, when one of the men took a bottle from his pocket and forced her to inhale its contents. Beyond his the girk knows nothing. The \$21 have been stolen from her pocket, and there is no doubt that a helicon outrage has been committed upon her. The dargettee force are making every exertion to brink to justice the perpetrators of the foul and dastardly crime. One make has already been arrested, but for many reasons the police authorates will not allow the name to be made public. In all probability the girl will give information which will lead to the arrest of all the rescale.

The interest among quoting ci cles yesterday was contered at the grounds of the Normal Ciub, of this city,

tapis between two veteran players, who were announced as "Solon Shingle" and the "Unknown." The match as "Solon Shingle" and the "Unknown." The match was with small quots at ane yards, twenty-one points up. There were not fewer than five hundred spectators present, many of them members of quoti clubs in Long Island, Staten Island and New Jersey. The amount of money that changed hands on the result of the game will not fail far short of \$2.000. The odds were laid on "Solon" from the start, aan were as promptly taken by the "Unknown's" friends. Shingle so od four on the lead and made every cast until the close of the seventh, when his opponent tied him at eleven. Solon, however, spurred himself up and went in, making nearly every end until the end of the game. The score stood at the close.—Solon Shingle, 21; Unknown, 16; being a majority for the former of six points, Several very scientific games were payed aby the professionals who were on the grounds.
